2. What should I know before I use Grow Waffle Bites?
3. What if I am taking other medications?
4. How do I use Grow Waffle Bites?
5. What should I know while using Grow Waffle Bites?
6. Are there any side effects?
7. Product details

1. Why am I using Grow Waffle Bites?

Grow Waffle Bites contains the active ingredient Tetrahydrocannabinol (THC).

Grow Waffle Bites is not approved for any indication and should only be used to treat symptoms or conditions as authorised by your physician. The therapeutic benefit of Grow Waffle Bites may vary between individuals. This medicine is chosen by your doctor as an alternative therapeutic option when all other treatments have failed to be beneficial.

2. What should I know before I use Grow Waffle Bites?

Do not use if you:

- Are pregnant or become pregnant.
- Are breastfeeding
- Are allergic to cannabis or any of the ingredients listed in this document.

Check with your doctor if you:

- Have serious cardiovascular disease (i.e congestive heart failure)
- Or your family have a history of serious psychiatric illnesses.
- Are taking warfarin or other medications

During treatment, you may be at risk of developing certain side effects. It is important you understand these risks and how to monitor for them. See additional information under Section 6. **Are there any side effects?**

3. What if I am taking other medications?

If you are on other medications or supplements, please consult with your doctor or pharmacist to ensure it is safe to take Grow Waffle Bites.

4. How do I use Grow Waffle Bites?

Grow Waffle Bites is intended for administration via a medical vaporiser, at a temperature between 175-190 °C. It is best to 'Start low and go slow', however, this medicine should be taken as directed by your doctor, who will choose your dose according to your individual medical needs.

Always use this medicine as directed by your doctor or pharmacist.

To administer the product:

1. Remove the child-safe lid.
2. Take 0.1g of herbal material and grind down to a coarse consistency.
3. Place ground material into the vapourisation device and turn on device.
4. Wait for device to heat up and inhale for a 5-10 second time period.
5. Exhale and wait 10-20 minutes to assess effects before dosing further.

If you forget to use Grow Waffle Bites:

This medicine is most effectively used on an 'as needed' basis. Take this medication when your symptoms arise and do not dose if you do not require symptom relief.

If you use too much Grow Waffle Bites:

If you think you have used too much Grow Waffle Bites, you should immediately:

- phone the Poisons Information Centre (**by calling 13 11 26**) or,
- contact your doctor, or
- go to the Emergency Department at your nearest hospital

5. What should I know while using Grow Waffle Bites?

Driving or using machines

Do not drive or operate heavy machinery if you consume this medicine.

Drinking Alcohol

Tell your doctor if you drink alcohol

Alcohol may increase the side effects of this medicine

Looking after your medication

- Always store your medication in its original packaging
- Store below 25°C, in a cool and dry place away from direct sunlight, moisture or heat.
- Refer to product label for expiration dates and do not use the product after the expiration date.
- **Keep out of reach of children**

6. Are there any side effects?

All medicines can have side effects. If you do experience any side effects, most of them are minor and temporary. However, some side effects may need medical attention. See the information below and if you need to, ask your doctor or pharmacist if you have any further questions.

Side effects include:

- Fatigue
- Dizziness or vertigo
- Disorientation
- Dry mouth and/or eyes
- Headache
- Increased appetite
- Difficulty concentrating
- Memory impairment or confusion
- Anxiety
- Paranoia
- Nausea
- Euphoria
- Hallucinations

Speak to your doctor if you have any of these side effects and they worry you.

Other side effects not listed here may occur in some people

Please consult your doctor immediately or present to emergency services if any of the following side effects occur:

- Allergy related side effects, such as swelling, shortness of breath or skin rashes or swelling.
- Rapid heartbeat, Chest pain or low blood pressure (feeling faint)
- Convulsions
- Suicidal thoughts

Reporting side effects

After you have received medical advice for any side effects you experience, you can report side effects to the Therapeutic Goods Administration online at www.tga.gov.au/reporting-problems. By reporting side effects you can help provide more information on the safety of this medicine
